

Chester County Health Department is creating a pool of volunteers to be the core of its Medical Reserve Corps. Seeking practicing, retired, or otherwise employed medical professionals and public health professionals to become Medical Reserve Corp (MRC) volunteers. The MRC will support the County during emergencies, assist with public initiative and ongoing community health outreach and education efforts. Community members without medical training are needed to assist with administrative and other essential support functions.

For more information or to volunteer, contact: MRC@chesco.org, or visit www.chesco.org/health
